Monochrome Tube

## Monochrome Tube

Contours of warm white or cold white light impose a magnetic attraction to linear details in interior and exterior environments. Monochrome Tube distinguishes façades, walls, and borders with a concentrated, even radiance due to its front diffuser. Compact, low-profile design available in three different lengths, combined with project-specific mounting options allows the Monochrome Tube to meet rigorous application demands. For installations of varying size, the Monochrome Tube offers flexibility and lends vitality to any project.

**Sleek, slim profile** The slender fixture housing allows Monochrome Tube to fit into the smallest of installation spaces. Though small and easily hidden from view, Monochrome Tube continues to deliver even strips of white light.

**Three fixture lengths** Available in three different lengths (500 mm; 995 mm; 1490 mm) Monochrome Tube accommodates a wide variety of required installation spaces.

**Optional dimming** Monochrome Tube may be dimmed via DMX512 through pulse-width modulation (DMX2PWM).

**Daisy-chain topology and simple cabling** Monochrome Tube can be daisy-chained up to 12m per power run, lowering installation and maintenance costs.

**Simple connection system** Plug'n'Play topology simplifies wiring and lowers installation costs.

## Technical Specifications & Options

### Monochrome Tube

COLOR TEMPERATURE	5700K Cold White                  2700K Warm White                  Blue*
ENVIRONMENT	IP66                  Suitable for Coastal Environment
