

# SHOWCASE

## mrhai Life - Berlin, Germany

Berlin Steglitz's latest attainment "mrhai Life" created a completely new experience of Asian cuisine by combining a Vietnamese restaurant with a Sushi and Cocktail bar. Merging tradition and modernity while providing a unique creativity in the pure art of sushi preparation, Mr. Hai established a stylish and classy place to be. Besides the remarkable cuisine, especially the enjoyable and comfortable surroundings attract diners to spend their time at mrhai Life. To evoke a warm and friendly ambiance the designers used Traxon's 1PXL Board RGB. By virtue of its compact size and slim design the lighting device was installed as a backdrop lighting application and controlled with Traxon's Micro Server to allow a multitude of various captivating scenarios. Fixed behind semi-translucent materials, the 1PXL Board is perfectly suitable for enriching the environment of the restaurant with atmospheric and colorful light. mrhai Life welcomes you in a warm and pleasant place and let a common dinner become a distinguished and memorable evening.
